

WE are stil alive

I'm still alive.

That means I'm able

Not in the future, but tonight

To change the world,

To make it stable,

To shine in darkness,

To kill my pride.

I'm still alive

That means I'm needed

To hear somebodies' hopeless cry

To bind an open wound that's bleeding

To be a servant all my life...

You are alive,

Which means you are chosen

To live today and not to die

Get out of the blues...

Дальше не хватело вдохновения, буду рад, если вы придумаете продолжение...
